

GREAT FALLS.....

The Great Falls Office of THE STANDARD is at 101 Central Avenue, one door West of Western Union Telegraph Office. Telephone No. 1. Advertisers rates furnished on application.

GREAT FALLS GOSSIP.

GREAT FALLS, Nov. 17.—E. O. Ferrell, formerly of this city, has been elected justice of the peace at Sun River, and H. J. Meili, formerly chief clerk here for the superintendent of the Montana Central, has received the same honor at Havre.

Frank W. Emerson and Miss Edith La Pina, both of Great Falls, were married yesterday, Nov. 16, at the Presbyterian manse, Rev. Robert M. Ramsey officiating. The happy couple have many friends in this city and vicinity who wish them hearty congratulations and best wishes.

Deputy Sheriff Carrier leaves to-day for Warm Springs, where he will take George Andre, the insane man, who recently attacked two men at Belt, thinking that they were the men whom he imagined were following him. Upon some subjects the unfortunate man is quite rational, but it was a close call for the two men whom he attacked, and he is too dangerous a man to be free.

Howard Crosby has moved the office of county clerk and recorder into the new court house. Others will follow next week.

Judge Race has dismissed the bastardy case of Walker vs. McKenna, as the matter has been settled outside the courts to the mutual satisfaction of all parties.

The Masonic social, which was to have been given on Thursday evening, Nov. 22, has been indefinitely postponed, owing to the fact that music for the evening could not be obtained.

Yesterday was pay day on the Montana Central, about \$25,000 being distributed amongst the boys in return for many a day's hard work. The smelter men are being made happy to-day in the same way.

William F. Turner, Jr., will ship 15 cars of cattle and six cars of sheep next Tuesday from Helena.

Arrangements have been made with Rev. F. W. Pool of Helena to give his two illustrated lectures on the Yellowstone National Park, in the Presbyterian church, on the coming Thursday and Friday evenings. They should be liberally patronized, as the proceeds are for the benefit of the church, and both lectures are highly entertaining and instructive.

The Salvation army gave an oyster supper at the White House, First avenue south, to-night.

E. S. Basted was before Judge Hawkins yesterday charged with bagging from the residents along Fourth avenue north. After listening to the prisoner's statement of his trials and tribulations the judge gave him work shoveling snow from the city sidewalks, in return for which he will receive food and shelter.

The Boston Clothing house, in connection with its business at Sand Coulee, has put on a line of freight teams that will leave Great Falls daily for the coal camp. Freight and packages of all kinds can be sent by this means if they are left at the Boston.

Although it is now 10 days since election, our capital bond(?) still goes on. There are now about 40 coke ovens under way and 15 of these are completed. The nonarrival of some brick which is needed has caused a slight delay, but it is expected that this will be overcome within a few days, when they will be put up at the rate of 10 or more a day.—Belt Valley Times.

George A. Boyle of Chicago is in the city for the purpose of reorganizing a lodge of Modern Woodmen. A lodge of this order was started in Great Falls several years ago, but owing to a chain of unfortunate circumstances interest was allowed to lapse and the lodge was not a success. The new organization will be a separate institution under a new charter and starts out with an excellent membership under most favorable auspices.

Sammy Daniels, the 13-year-old boy brought in from Belt Tuesday by Deputy Sheriff Duncan McLeod was sentenced to the reform school by Judge Benton yesterday. His mother, who came in from Sand Coulee bringing a new suit of clothes and other wearing apparel for her wayward boy, stated the boy had not been punished for a year, and that everything possible had been done to make him attractive to him, but in spite of it all he preferred to wander about as a tramp, and there seemed to be no way left to control the boy and keep him within bounds. She consented to his being sent to the reform school, whether he will be taken, but wept when the judge announced his sentence, and even the boy shed a few tears which had as tried to be could, not keep back.

The new hotel which Archie McDonald will start in the Realty block as soon as the work of remodeling that building is completed will be called the Central hotel. Work was begun yesterday on the addition which is to be used for a kitchen.

City Editor Bole of the Tribune, who acted as registry agent for the first district, has compiled an interesting table showing the nativity of the voters and the number from each of the different states of the union. New York, Ohio, Pennsylvania, Wisconsin and Michigan lead in the number of residents here, and of the foreign born Canada and the British Isles furnish about 200 each, being more than double the number from any other foreign country, except Germany and Sweden, who register something over 100 each. The per cent of foreign born population in this city is about 35 per cent, and including England, Canada, etc., the per cent of population from English-speaking countries foots up to over 75 per cent.

Gold has been discovered in the neighborhood of Sun River and a number of gentlemen have incorporated under the title of the Sun River Consolidated Mining and Development company to develop a valuable gold bearing quartz property located in that neighborhood. The following are the incorporators: John L. Largent, H. Minter, E. B. Largent, W. T. Houston, M. L. Strong, H. B. Strong, W. P. Burcher, J. C. Adams, B. A. Robertson, John P. Dyas, Trustees, J. C. Adams, H. Minter, Joseph L. Largent, president, John Largent, vice president, W. P. Burcher, treasurer, B. A. Robertson, secretary, John P. Dyas, Principal place of business, Sun River, Mont.

The trains back into the depot here in such a way that strangers are often somewhat perplexed to know whether to take that particular train or not, and frequently make frantic attempts to catch a morning train when it is entirely unnecessary,

and still more often boys and men are seen to do foolhardy things which some day will result in a serious accident and the danger of it is frequently commented upon. On account of this general feeling of danger considerable excitement was caused yesterday by an unimportant accident by the wind having moved the baggage truck far enough so that the incoming passenger train struck it, completely wrecking two of the trucks and contents and damaging the truck and car steps slightly.

On the 15th instant there was born to Dr. and Mrs. J. E. Carshadden, a son.

News has been received of the death of David Kuehler, and old resident and well known citizen, living 13 miles out towards Sun River. The cause of his death is reported to be pneumonia.

Owing to the changes being made in the Realty block the Liberal church will in the future hold services in Elks' hall. The books, etc., were moved yesterday and services to-day were held in the new quarters for the first time. It is hoped that during the winter months, after the holidays, that evening services will also be held.

S. Johnson of Ninth avenue south and Tenth street is the proud father of a boy born on the 10th inst., mother and child doing well.

Mrs. W. W. Conner and children returned yesterday from an extended trip to Minneapolis and other eastern points.

H. S. Jenkins of Boston is the guest of Mr. and Mrs. E. M. Holmes.

R. S. Ford, president of the Great Falls National bank, is in Helena.

City Attorney John A. Largent left yesterday afternoon for his former home in Illinois and a well authenticated rumor is to the effect that he will not return alone. Mrs. Largent will receive a hearty welcome.

County Superintendent of Schools Stephenson has given notice that he will hold a teachers' examination on Friday, Nov. 30, and quite a number of the teachers have already signified their intention to attend.

Clerk of the School Board Canfield will commence work Monday to take the annual census of the school children in this district and will complete the work as early as possible.

Married, at the residence of Mrs. Mary Morrison, 711 Central avenue, corner Seventh street, W. L. Kearns of Stillwater, Mont., and Miss Minnie Perry of Great Falls. The happy couple took their departure yesterday for an extended wedding tour to Boston and other points and on their return will go to Kalispel, their future home.

A private letter from Woods, Ohio, brings the cheerful news that George Stephenson, who is with his parents at that place, is convalescent. This is the most welcome and unexpected news to his many friends here, as little hope was entertained for his recovery at the time he left here.

J. M. Burlingame has returned from an extended trip to Chicago and other eastern points.

Mrs. J. B. Driver, who has been very ill for a time past is reported as improving. Fred Bower and bride returned Friday from New York and an extended trip through the east. Mr. Bower is one of the best known and most prosperous sheep men in the Judith Basin.

C. J. Rohr, bookkeeper at the Silver Smelter, is enjoying a vacation in Southern California.

John Mayer, manager of the telephone office at the Montana Central, has returned from a month's visit with his father, now of St. Cloud, but formerly division superintendent at this point.

MARVELS IN PHOTOGRAPHY.

Pictures Taken at the Bottom of the Sea.—New Stars Revealed.

A short time ago a Frenchman brought himself to the notice of scientific naturalists by undertaking an exploring tour of the Red sea, from which he brought back a strange and curious collection of fish and shells, embracing several specimens entirely unknown. Continuing his researches on the coast of France, he assumed a diver's costume to observe at the bottom of the sea the metamorphoses of certain molluscs impossible to cultivate in aquaria. He was struck with the wonderful beauty of submarine landscapes, and resolved to photograph what he could, since a simple description would save too much of an overridid imagination. At first he worked in shallow water with a water-tight apparatus, and the clearness of the water allowed him sufficient light to sensitize the plates. But proportionately as the depth increased the waves clouded his proofs. Then the young scientist conceived the idea of utilizing the magnesium in an apparatus of his own invention. This apparatus consists essentially of a barrel filled with oxygen, and surrounded by a glass bell containing an alcohol lamp. On the flame of the lamp, by the means of a mechanical contrivance powdered magnesium is thrown, flaring as a view is taken. The barrel is pierced with holes on the lower side in such a manner that as the oxygen diminishes the sea water enters, so preserving the equilibrium between external and internal pressure. Beautiful submarine photographs taken on the very bed of the Mediterranean at Banyuls-sur-Mer, near the Spanish border, have been produced in this way.

Hardly a day passes now but new and important photographs are produced by cameras of ever-increasing power. New stars have been revealed that were heretofore obscured from man. It is difficult to realize how far these worlds are from us. One of the most popular and eminent lecturers on astronomy is Sir Robert Ball, who used simple and graphic illustrations to give his hearers ideas of magnitude and distance. For instance, he says that going at the rate of the electric telegraph—that is, 183,000 miles a second—it would take 78 years to telegraph a message to the most distant telescopic stars. But the camera has revealed stars far more distant than these, some of which, if a message had been sent in the year A. D. 1—that is to say, 1,894 years ago—the message would only just have reached some of them, and would be still on the way to others, going at the rate of 183,000 miles a second.

Hood's Sarsaparilla, acting through the blood, reaches every part of the system, and in this way positively cures catarrh.

The Of Railway trains in the Northwest and without a superior in America is the North-Western Limited between Minneapolis, St. Paul and Chicago. It is the finest train this side of Chicago, the finest train running out of the Twin Cities and is luxurious enough for a king.—The Commercial Bulletin, Minneapolis.
